## 1 How i will proceed

I will use the 5 "W" rule to have a complete overview to the main fundamental questions.

### 1.1 Example

Who ? Ex. Who created the game ?

What? Ex. What's the game about ?

When ? Ex. When it was created ?

Where ? Ex. Where it was created ?

Why ? Ex. (...)

Some questions like "why" they simply do not have an answer, so you could use the "why" just to be more specific in some other questions.

Using this technique requires using these questions multiple times:

Ex. I won't just answer the question "who" but I will go more and more specific with the questions about the topic which implies "who" in the sentence and so on. In some cases it is necessary to combine some questions like "what was the success of the game?" + "was it immediately ? or it took time ? (when)".

What do you think ?
